## EXPERIENCE

### DevMountain

OCTOBER 2016 -  
PRESENT

Mentor, Junior Developer

- Revamped web apps used daily by students/faculty
- Taught workshops on new technologies
- Constant debugging and mentoring student coding

## PROJECTS

### HomeOne

SEPTEMBER 2016  
<https://homeone.tech/>

- Scalable, self-customizable home automation platform
- Built with Angular 1, using UI Router and Node server
- NVD3 graphs and hardware integration

### Capriccio

AUGUST 2016  
<http://capriccio.tech>

- E-Commerce and publishing platform for musicians
- Over 15 Angular views, authorization checks in routing
- Integrated user to server file uploads, Facebook Auth, and Stripe
- Scroll animations, user-personalized header, SCSS

### ShelfMe

JULY 2016  
<https://shelfme-1378.firebaseio.com/>

- Book recommendation app
- Used Google Books API to search and recommend books
- Uses Firebase for auth and database
- Animated view changes, very aesthetic/accessible UI/UX

## EDUCATION

### DevMountain

JUNE 2016 -  
SEPTEMBER 2016

- Intensive, project-based training in Web Development
- Exposure to Angular frameworks and focus on front-end systems
- Guest teachers from the development workforce

### University of Michigan

AUGUST 2013 -  
DECEMBER 2015

- Masters degree in Trumpet Performance
- A strenuous program of problem-solving and attention to detail
